# Election outcome – “Phir Ek Baar Modi Sarkar”

- Thumping majority win for the ruling NDA dispensation with 350+ seats – this the largest mandate for an incumbent government since 1984.
- **What does this mean?**
  - Political risks reduced and market expectations of Government’s continuity have been addressed.
  - Renewed expectations for a more reforms oriented policy agenda in divestment, labor reforms, ease of doing business and land acquisition.
- **Key action areas for the NDA government to steer the market are:**
  - Address the disquieting rural distress
  - Stem the drag on discretionary and staple consumption
  - Resolve bank balance sheet issues and recapitalize PSU banks to spur private capital expenditure
  - Initiate measures to infuse liquidity in the NBFC sector, which has a cascading effect on consumption & growth
  - Sustain Public Infrastructure spending and plug the fiscal deficit

# Update August 2019

# Budget Highlights – Didn't live Up to Expectations

- **Strong Infra Push** : Budget gave impetus to housing, water solutions, transportation, power transmission, etc. were highlighted in budget but funding requirements were inexplicit.
- **Disinvestment Target**: FY20 Disinvestment target at Rs. 1,050bn and Government willing to reduce stake to <51% but not willing to give up control
- **Buyback Tax**: Introduced tax on buyback at 20% (in-line with Dividend Distribution Tax)
- **Unintended FPI surcharge**: Surcharge on individual income tax categories at 3% on income of Rs2-5 crs and 7% on > Rs. 5 crs; For FPIs registered as trust with > Rs.5 crore of taxable income, effective tax increased from 35.8% to 42.7%
- **Recapitalizing PSU Banks**: Earmarked Rs. 70,000 crs to capitalise PSBs aimed at boosting credit growth.
- **Liquidity easing**: Banks encouraged to purchase high rated pooled assets of NBFCs worth Rs. 1 lakh crs, on which government proposes one time six month credit guarantee of first loss of 10% loss.
- **Fiscal Deficit target** revised from 3.4% to 3.3%.
- Proposed change in **Maximum Promoter Shareholding** limit to be brought down from 75% to 65%

Budget aimed for all-round Infrastructure development and stick to fiscal discipline but did not solve any imminent concerns like liquidity, slowing consumption, rural distress and subdued private sector capex.

# Slowdown Evident

- Rural wages suppressed over the last 2 years
- Liquidity concerns, difficult credit environment and subdued rural demand resulting in slowdown in consumer demand
- Monthly Auto Production numbers continue to see de-growth; in addition, production cuts seen across Automobile companies

\*\* For Banks and NBFCs, Sales is total Interest Income

# Q1FY20 Earnings Trend

- Of the 74 companies that reported Q1 earnings, total sales grew by 9% and PAT by 5% yoy
- **Private Banks** saw strong earnings growth on the back of strong operating performance and improvement in asset quality
- **PSU Banks** cumulatively turned profitable, primarily on the back of improvement in asset quality and losses the previous year; management commentary and results pointed to bottoming out of NPAs.
- **NBFCs** saw slowdown in loan growth and pressure on NIMs. However, Bajaj Finance defied all odds and continued its growth momentum
- **Autos:** Weakness in Auto Sales was evident in earnings; 2W industry did relatively well.
- **IT :** Earnings for IT industry was led by Infosys and TCS; Companies saw margin pressures and tapering of growth (ex- Infosys)
- **Cement:** Companies saw strong earnings growth due to higher realisation. Due to elections volume growth was tepid
- **Consumer Durables:** Demand consumer durables remained strong aided by strong summer.
- **FMCG :** Industry saw stable volume growth
- **Infra:** Execution and order intake were sluggish due to election

# Sectoral Outlook

Sector	Comments
Banks	See strong credit growth and continued improvement in asset quality
Infrastructure & Capital Goods	Demand driven by robust government spending across Housing, public infrastructure, irrigation and transportation.
IT	Supported by weak rupee, increasing market share and better business models of Indian IT services vendors
Autos	Near-term demand muted due to BS-VI transition and increasing costs. However, long-term story remains intact
Insurance	Significant under-penetration currently and increasing financial inclusion to drive growth
FMCG	Near term demand subdued due to slowing rural economy
Metals	Global slowdown and trade tension to continue to lead to demand headwinds
Telecom	Increasing competitive intensity and mounting debt to put pressure on financials
NBFCs	Government's thrust on improving liquidity and improving regulatory oversight to lead to resumption of credit growth and stable asset quality

# Outlook for Asset Classes

Asset Classes	Performance in Q1FY20	Start to End Value In Q1FY20	Outlook for Q2FY20	Remarks
Debt	10-Year Gilt: down 47 bps 3-M T Bill: down 28 bps 6-M T Bill: down 19 bps 3-M CP: down 120 bps 1-Yr CP: down 110 bps 10-Yr AAA Corp: down 30 bps Call Rate: down 44 bps	7.35-6.88 6.31 - 6.03 6.35 – 6.16 8.3 – 7.1 9.1– 8.0 8.43– 8.13 6.02– 5.58	Gilt yields moderated sharply post the announcement of issue of Sovereign Bonds overseas. Further decline will wait for cues. Short term rates are likely to moderate post RBI rate cuts	This view will be negated once the Govt goes ahead with the first tranche of Bond issues overseas. Inflation is likely to moderate further. An uptrend will also cause yields to climb higher
Equity	Sensex: Up 1.8%  Nifty: Up 1.4%	38,673– 39,395  11,624– 11,789	Post the sharp correction in July, resumption of FII flows, Q1FY20 results largely on expected lines and normal monsoon will cause an uptrend in the markets to resume	FPI Flows and Global events will have the most profound impact on markets this quarter.

Thank you
